**REGULARLY FURNISHED:**

Doors are designed for drywall, masonry or concrete construction and provide the security required in today's schools, hospitals, hotels, and correctional institutions. Door and frame are fabricated from 14 gage, galvanized steel and the door is provided with a 16 gage vertical reinforcement channel. Lock is an automatic spring bolt type featuring a precision mechanism. When the door is closed in the locked position, the uniquely designed angled cam lock automatically engages. The key can only be removed when the lock is in the locked position. Hinge is a concealed type. Doors 24" or larger are supplied with a continuous piano hinge. Finish is a prime coat suitable for painting.

**GUIDE SPECIFICATION:**

Provide 4782 Series, Shur-Lok Access Doors. Access door and frame shall be fabricated from 14 gage, galvanized steel with a prime coat finish. Door shall have a 16 gage vertical reinforcement channel, a concealed hinge, and an automatic locking, spring bolt lock. Finish shall be a prime coat suitable for painting.
